

Fuse AI

Launching in SY26

Attention district leaders! Artificial Intelligence (AI) is here and Throughline Learning is ready to be your guide. If you're looking to establish thoughtful safeguards and boost your district's capacity, confidence, and creativity in this new era of immense possibilities, Fuse AI is for you!

What it is

Fuse AI is a year-long fellowship that equips educators with the knowledge and skills to support their district to develop AI policies, create custom AI tools, and facilitate professional learning experiences for their colleagues.

What you get

- **Co-Design of District AI Policy and Guidance:** Support unpacking state and federal guidelines, developing district AI policy, and elevating responsible use cases
- **Year-long AI Training for Fellows:** Sponsorship and training for 1 or more district Fellows to serve as internal AI experts
- **Train-the-Trainer AI PD:** Certification of your Fellow(s) to lead engaging AI professional learning experiences for your district staff
- **Custom AI Tool Development:** Collaboration with Playlab.AI to develop AI tools that address authentic problems of practice and build efficiencies that center the student outcomes that matter
- **Measurement of Adoption and Impact:** Identify key indicators to measure mindsets, AI implementation, and impact with teachers and students
- **And much more!**

Let us help take your district from AI confusion to AI excellence with a cost-effective, proven model for building internal expertise!
